

OTICON | **Jet PX**

Enhance your hearing.
Enhance your life.

oticon
life-changing technology

**Experience all the
sounds around you**

Get the most out of life with Oticon Jet PX hearing aids. Experience great sound quality and seamless connectivity wherever you are. The AI-enabled Deep Neural Network (DNN) technology in Oticon Jet PX will allow you to immerse yourself in the rich, complex, and unpredictable sounds of life.

Why choose Oticon Jet PX?

A more natural representation of all sounds

Experience greater detail and clarity thanks to the Deep Neural Network, a built-in artificial intelligence that was trained to understand the sounds around you.

Hear the sounds you love

Enjoy technology that delivers 360° access to speech and clear sound from all directions, even in noisy environments.

Supporting your brain

Built on BrainHearing™ technology to give you access to the full sound scene – supporting your brain's natural way of working.

Connect to your digital world

Enjoy great connectivity options, stream sound from your favorite devices, and stay in control.

Technology designed to **empower your life**

Are you missing out on the sounds of life?

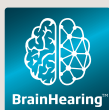

Living with a hearing loss can be frustrating. Not being able to follow a conversation on the other side of the table or hear when a child is trying to get your attention can leave you feeling isolated.

The built-in Deep Neural Network (DNN) in Oticon Jet PX provides more detail and clarity, even in noisy environments. This advanced technology helps you follow conversations and stay connected to what's happening around you. It opens up your world, allowing you to comfortably hear and participate in life's important moments.

Why do we provide the open sound experience?

The brain plays a crucial role in your hearing – and when it's missing out on sound because of a hearing loss, it needs to work harder to understand what's going on. By giving you the open sound experience, we help your brain function at its best.

Connect to **your digital world**

Enjoy direct streaming, hands-free calls and more

Easily stream your favorite music, podcasts and audiobooks directly to your hearing aids.*
Enjoy hands-free calls with your loved ones from your iPhone®, iPad® and Mac®.**

Control at your fingertips

With the Oticon Companion app, you can adjust the volume, check your battery level, find your hearing aids, and even consult with your hearing care professional via RemoteCare.

Find a style to suit your needs

* See which devices are compatible here: oticon.com/support/compatibility.

** Hands-free communication is available on select devices.

Oticon Jet PX is available in four styles and five colors to match your needs. For rechargeable devices, you have the option of a Desktop charger or a portable SmartCharger.
